

If you are an **AppleStocks** or **AppleNews** user and complaining about **missing news?**

Please reach out to [Dan Steckenberg](#), Managing Editor at *AppleNews* with your complaints.

[dsteckenberg@apple.com](mailto:dsteckenberg@apple.com)

Mr. Steckenberg emailed our news team that Apple is **no longer accepting** any “**Unsolicited Applications**” for News Inclusion.

I would categorize **User Complaints** as “**solicited**”.

Mr. Steckenberg works for **you**, the *Apple* customer, and the seeming indifference over **missing real time’ news** from [738 publicly-traded issuers](#) should be **alarming** as an iPhone user.

Hence, please ensure the **Additional Apple Management** below **are cc:d** in your email to Mr. Steckenberg.

Missing News an **Apple Management** issue.

Meantime, if you are in need of a **Free, user-friendly app** you can [download to your phone](#) and search **all news** from **all TierOne sources**, go to:

[Stockwatch](#).

The app can **also** be Upgraded to a **Trading platform**. (*AppleStocks is a non-Trading platform, obviously missing a lot of data.*)

Simply go to the [istore in your phone](#) and download [stockwatch app](#).

Real people work at Stockwatch. If you have a Missing News issue, simply contract them directly 604-687-1500, #1 to the newsroom.

Have a terrific day and remember to **email Dan Steckenberg** and **cc: all other** Apple employees below in your complaint.
